

## **Important points to be considered before making an application**

**Customer id :** \_\_\_\_\_ **Date :** \_\_\_\_\_

- (1) Complete the construction work of premises before making an application. It is mandatory to arrange a proper place outside premises for installing the meter.
- (2) Provide your existing service number or previously disconnected service number of the premises. \_\_\_\_\_
- (3) If your current service is working, it is mandatory to create a separation or partition between two premises through a concrete wall.
- (4) It is mandatory for the applicant to get consent of the society (if needed) to lay cable for your service wherever required also to acquire permission to install MSP. The repairing work of your premises or road in society must be carried by yourself.
- (5) To mention correct house number as the address mentioned in the application form will be considered valid.
- (6) For shifting of meter, you are requested to get the wiring done up to the new meter location.
- (7) To get PVC pipe fitted in case of LC wire fitting.
- (8) On second / third day of application, the premises should be open and available between 09:00 am to 01:00 pm as well a responsible person to be present at the time of survey.
- (9) Copy of plan to be submitted in case of application for construction.
- (10) If an overhead line passes through your premises than a proper distance must be maintained. After measuring it, if required an undertaking bond needs to be submitted.
- (11) The work will be carried out after obtaining Ahmedabad municipal corporation road excavation permission wherever required or if

necessary.

- (12) Application to be done after completion of all the wiring work of the premises like main switch, earthing and required size of load wire (from meter till customer's main switch).
- (13) ELCB is compulsory for 2 kw and above sanctioned load.
- (14) Ground earthing is compulsory for three phase connection.  
Application to be done according to the connected load of the premises and also provide test report accordingly. Provide correct information in test report.
- (15) Do not keep wires of T.V., telephone, etc. or any other wires in pipes for electric wires.

I have read and agreed to all the above-mentioned details. I will abide by all the conditions written above. If proper response if not received from our end the application can be cancelled and to which I will not oppose.
